

Black Coral Inc presents

Situational Awareness - The Holy Grail of Information Management

a breakfast seminar, on Thursday, January 10, 2008 from 0730 to 0930 in the York Salon at the Marriott Ottawa Hotel

Black Coral Inc. will host a breakfast seminar entitled "Situational Awareness - The Holy Grail of Information Management" on January 10th, 2008 at the Marriot Ottawa Hotel. The seminar will be offered exclusively to federal government departments. Event speakers will be Richard Moreau (Vice-President, Emergency Preparedness Capabilities, Prolity Corporation) and Darrell O'Donnell (Chief Technology Officer, Black Coral Inc.).

Richard will define Situational Awareness (SA) as well as speak about how it is generated and maintained. In addition, he will examine the role of SA in your organization's overall crisis management framework and the role of leaders in defining the SA envelope.

Darrell's presentation will discuss technologies that support a wide range of approaches to maintaining Situational Awareness. He will provide examples of approaches that can be adopted at various levels in an organization to create a high level of shared SA from the leadership on down as well as out to the edge of your organization.

Registration for this event is now closed.
